

Time/period	Wednesday 13		Thursday 14		Friday 15	
9:00-9:30	Registration		Registration		Registration	
9:30-11:00	Chin-Teng Lin		Orietta Nicolis Spatio temporal models for the analysis of environmental data		Chin-Teng Lin	
11:00-11:30	Coffee Break		Coffee Break		Coffee Break	
11:30-13:00	Pablo Zegers Deep Learning		Paulo Lisboa Computational Intelligence in Medicine and Biology		Pablo Estévez Computational Intelligence, Big Data, and Deep Learning: Applications to the Astronomy	
13:00-14:30	Lunch Break		Lunch Break		Lunch Break	
14:30-16:00	Sebastián Maldonado Feature Selection for Support Vector Machines: an application in Credit Risk	Alejandro Weinstein Human Decision Making Models based on Reinforcement Learning	Wael El-Deredy		Fabián Riquelme Identifying influential users on social networks: methods and applications	Felipe Tobar Artificial Intelligence & Machine Learning: An Illustrative Introduction
16:00-16:30	Coffee Break		Poster Competition / Coffee Break		Coffee Break	
16:30-17:30	Luis Aburto Applications of Computational Intelligence in Latin American Retail: pricing and recommendations.	Miguel Solis Reinforcement Learning: Fundamentals and applications in robotics	Richard Weber. Dynamic Data Mining - The Potential of Computational Intelligence to Update Data Mining Models	Felipe Bello Cerebral Autoregulation Blood Flow System with Computational Intelligence	Mauricio Araya. Computational Intelligence and Astroinformatics	Gonzalo Acuña Modeling for Non-Linear Dynamic Systems using Computational Intelligence Tools
17:30-18:30	Roundtable of IC on Chile. Pablo Zegers		Reception and Poster Competition Awards
